## Not-so-nice Apps

SNAP CHAT

Self-destructs photos sent within a few seconds unless someone takes a screen shot. Has been known to be used for "sexting".

TINDER

Dating app that allows users to "rate" profiles and locate "hookups" via GPS tracking. Rating encourages bullying and tracking opens doors for predators.

ASK.FM

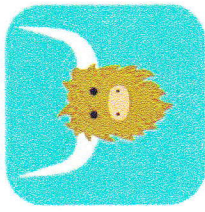

Encourages anonymous Q&A. Associated with multiple suicides across the U.S.

KIK

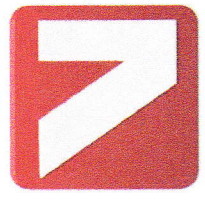

Allows potential predators to communicate anonymously with your children.

YIKYAK

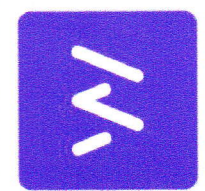

Allows users to anonymously send sexually explicit and abusive language.

VAULTY

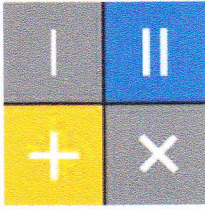

Snaps photo of anyone trying to access the "vault" with the wrong password. The intention is to hide information.

WHISPER

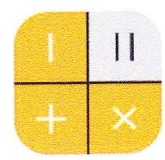

Encourages users to share secrets with strangers, which can compromise safety or promote cyberbullying.

HICALCULATOR

Looks like the calculator app (see right) but allows users to hide photos, videos, and messages.
